Huntsville, Alabama

Wednesday, November 23, 1966

MISS JANICE HARRIS, a junior majoring in English, represented UAH in the annual Alabama homecoming Parade November 12

at Tuscaloosa. She is secretary of the SGA and works in the library.

(Photo by Bill Coffey)

## Janice Harris Represents UAH in Tide Homecoming

A new dimension was added to homecoming activities at Tuscaloosa this year with the appearance of a special UAH car in the parade Saturday, November 12.

Riding in the car was pretty Janice Harris who had been appointed by the Student Legislature to represent UAH students at the capstone.

Miss Harris, a junior majoring in English, is secretary of the SGA. Her driver was SGA president Ron Sanders.

For the parade, Miss Harris wore a burgundy dress and a pink mohair coat. The car, a maroon 1965 Corvair "Monza" convertible with black interior, was loaned by Dr. Margaret S. Bond.

Planned festivities for the weekend long celebration began Friday afternoon with a free exhibition water polo match at the nataerium. After the annual bonfire that night, the Cotillion Club presented The Kingston Trio in Foster Auditorium. The final event of the day was a fireworks display.

Saturday events were capped by the morning parade and the match between the Crimson Tide and South Carolina's Gamecocks. The game was played before a capacity crowd of 56,000 in an expanded Denny Stadium.

Immediately after the game, at 4:00 p.m., open house was held at Paty Hall, campus fraternities and religious centers.

## SGA Committee Will Study Revision of Constitution

Possible revisions of the SGA Constitution will be studied by a newly created committee of the Student Legislature.

The committee was created at the November 4 session of the Legislature after several representatives expressed the feeling that the constitution in its present form has shown itself to be inadequate to cope with the problems of the SGA.

Among the cases cited was the vagueness of the constitution in dealing with the resignation of SGA officers that was brought to light by former president Wayne Black's withdrawal from school.

Members of the committee are Jim Kimbrough, Susan Ayer, and Mack Gibbs - all of whom are representatives.

The committee's primary duty will be to review the constitution and suggest such amendments as it feels are needed. Once a proposed amendment has been approved by two-thirds of the Student Legislature and by the faculty, it must be submitted to the students for ratification. It must be approved by two-thirds of the students voting before it can go into effect. Rep. Jim Kimbrough has

stated that he expects the committee to concentrate on

(Continued on Page 3)

A coffee shop for UAH students may be the result of an appropriation made by the Student Legislature, November 11. If the project meets with administration approval, the money will be used to renovate the student lounge in the basement of Morton Hall. The proposal that the legislature accepted was made by Representative Tommy Dashner who has been responsible for most of the work done in studying the possibility of creating and operating a coffee shop.

The shop, to be known as "The Pit and the Podium," will be operated by a Board of Directors consisting of four members of the Student Legislature, selected by the Legislature for one-quarter terms. Each member will have a specific title and duties. There will be a Director, who will act as chairman of the board, a Purchasing Agent, a Treasurer, and a Manager.

A maximum of \$1764.21 was appropriated from the general fund of the SGA budget to be set up the coffee shop and to provide capital for the first few weeks of operation.

The sum includes \$688 for furniture, \$500 for a counter, \$140.25 for the coffee urns,

## UAH Will Have Float in Parade

Students at UAH will be represented in the annual Huntsville Christmas Parade as a result of the Student Legislature's decision to enter a float in the December 3 event.

The theme of the float will be "Santa's Coming in a Row Boat," an idea suggested by the popular song "Santa's Coming in a Whirly Bird." A chief feature of the red and white decorations will be a replica of the rowing crew's shell. It may or may not be manned.

## Success Adds Momentum

Students at UAH will have their first semi-formal dance when the inaugural ball is held Saturday night. Although something new in the way of student activities here, this dance has been well prepared for.

The committee in charge of planning the inaugural festivities has taken pains to make all necessary preparations. A talented, high quality band has been engaged to play for the affair, and arrangements have been made for space, publicity, and admissions.

The final and decisive factor, though, will not be decided until Saturday night

when the students arrive. Active student participation will be not only the key to the success of this event but also a reward and encouragement to the SGA officers and representatives responsible for planning such activities.

Every student who puts up with the inconvenience of getting into a suit or a cocktail dress will have the reward of knowing that he or she has contributed a little bit to the momentum of student activities at UAH in addition to the enjoyment of the dance itself.

## From The Editor's Mailbox

Dear Sir:

In regard to an editorial in the most recent edition of Univala.

I was not aware that the reception desk in Morton Hall was viewed by the student body as a controlling hand of the University administration. It merely appeared to be the most convenient place for University Cultural Series tickets to be distributed to a student body who walk the halls from 8:00 a.m. to 10:00 p.m. daily.

I would support ticket distribution by students if a feasible method of manning a ticket booth could be arranged for these extended hours. Personally, I feel students could better spend this time studying.

Certainly, the University Cultural Series Committee shares in the editorial opinion that the events are worthwhile

and should be attended by all serious minded students. We want to do everything possible to encourage them to do so and will discuss your suggestion at our next meeting. The Committee was gratified that nearly five hundred "Tempest" tickets were distributed in Morton Hall. However, we are not yet satisfied with either student or faculty participation.

May I also take this opportunity to express my personal satisfaction in reading Univala. It shows improvement with each issue by better coverage of campus news and by allowing more members of the University community to air their complaints and opinions.

Keep up the good work.

D. Royce Boyer  
Assistant Professor of Music  
Chmn., University Cultural Series Committee

## About That Student Help

As Mr. Boyer suggests in his letter on this page, most students probably don't think of the receptionist's desk in the Morton Hall lobby as an arm of the administration that must be approached with great timidity. It was not the intention of a recent editorial in the Univala to imply that such a condition exists.

Instead, the purpose of the editorial was to point out the benefits of having tickets for the University Cultural Series sold by students.

First, such an arrangement would rectify the slight but real injustice of having administrative personnel do clerical work for what is supposed to be a student sponsored activity. This injustice is indeed real because if each ticket sale lasts a mere 30 seconds, 600 such sales would require five hours - time that can be gained only by leaving some other work undone. Thus, it is only realistic to conclude that having tickets sold at the receptionist's desk cost

the administration a considerable amount in time and effort.

Secondly, there is a good chance that student interest in the event would be increased by having students conduct the ticket sales. For a student who buys a ticket to a show from another student will more readily identify that show in his mind as a student sponsored event than if he had bought the ticket from some member of the administrative staff.

Furthermore, a makeshift desk manned by a student would attract more attention and thereby promote sales better than a permanent desk that looks the same from day to day whether tickets are sold or not.

There will inevitably be problems to solve before student conducted ticket sales can be initiated. Indeed, the problems may very well outweigh the advantages. Should this be true, no one will justifiably find fault with a decision against sales run by students. There should, however, be a serious enquiry into the pros and cons of such a procedure.

MORTON HALL AT NIGHT is brightened by a blanket of new-fallen snow in the picture taken immediately after the surprise storm of three weeks ago.  
(Photo by Bill Coffey)

## COFFEE SHOP PLANS

(Continued from Page 1)

cups, \$55.96 for initial supplies \$180 for operating and \$200 to redo the walls and lighting system.

The decision for the SGA to finance and operate the shop itself was made after several possibilities had been considered.

The most outstanding of the other possibilities studied consisted of a plan under which the Vocational Rehabilitation Center, a part of the State Department of Education, would set up the shop and provide physically handicapped personnel to operate it. The shop would then be operated with the idea of making enough profit to support the personnel.

This plan was rejected because of difficulties in getting it started and a lack of control over operation which the members of the legislature felt will be necessary in order to provide good service for the students.

After the orders have been placed it will require two to three weeks before the furnishings for the shop will be ready. The legislature is attempting to get the coffee shop ready in time to open at the beginning of the Winter Quarter.

Dim lighting and decor will be used to create the atmosphere of an "intellectual" coffee house.

The room will be furnished with eight 42-inch tables and 32 matching high back chairs. A 12 foot counter with a canopy will be placed along one wall, and a "soapbox" will be placed at a strategic point in the room.

At first only coffee and donuts will be sold in the shop. Other drinks or types of food might be added in the future but there are no definite plans for such expansion.

The times during which the shop will be open have not yet

been decided, but recommendations have been made by several legislators that the shop be kept open during most of the day Monday thru Friday and possibly on Saturday nights also.

The legislature plans to hire several students to work at the counter part time rather than try to depend on volunteers. Any student who would like to work in the coffee shop will be eligible to apply for the job.

As of press time official faculty and administrative approval for the project had not been obtained.

### Placement Tests Will be December 3

(Continued from Page 1)

Prominently displayed on the float will be the slogan "UAH on the Move."

The decision to enter the float was made at the legislature's November 4 meeting after Rep. Megan McPhearson reported the results of her study of the costs involved.

Her findings indicated that a float could be purchased for over \$100 or built for between \$50 and \$75. The Legislature then decided upon the latter alternative.

Students interested in helping to build the float should contact Janice Harris or Rick Coleman.

Placement tests for the winter quarter will be given on December 3 according to Michael F. LaBouve, director of admissions.

Students who need the ACT in addition to the Placement Battery may take it December 2, he added. Neither of the tests, however, will be administered to students who have not registered in advance.

Further information may be obtained from the receptionist in the lobby of Morton Hall or by calling 837-4700, ext. 266.

MISS MARDI HAMMOND, A FRESHMAN AT UAH, takes time out from her studies to relax by the new lagoon in front of the Graduate Studies Building.

## CONSTITUTION

(Continued from Page 1)

the provisions giving the requirements for SGA officers, dealing with resignations, setting the required number of Student Legislature meetings per quarter, and calling for the creation of a cabinet. The general wording of many passages may also be discussed, he added.

## UAH FUTURE UNVEILED

A scale model of the UAH campus, projected to the day when 12,000 students are enrolled here, was unveiled two weeks ago.

While far from being an ironclad plan for future construction, the model embodies several of the main concepts

that will probably guide future decisions.

One of the main concepts of the tentative plan is a landscaped mall stretching from the front of the Research Institute to Morton Hall. Its purpose, according to Vice-President H. Clyde Reeves, would be

to, "tie the entire campus together physically and psychologically."

The focal point of the mall would be the library building — soon to be started a few hundred yards to the southeast of Morton Hall. From there the mall would spread out like an

irregular "y" in three directions: to the Research Institute, to Morton Hall, and to a small wooded hill behind University Place School.

Another possible though uncertain concept is the creation of two new lagoons next to Sparkman Drive to form a watery chain parallel to the mall.

Academic buildings will be concentrated north of Holmes Avenue. Science and engineering buildings would border the mall to the west. Humanities would stretch from Morton Hall to the wooded hill. Current thinking would give the area from the hill down to Holmes Avenue to the social sciences, according to Mr. Reeves.

Dormitories for about 4,000 resident students are envisioned for the east side of the campus south of Holmes Avenue. This plan also gives space for a 35,000 seat capacity stadium and sets aside room for intramural sports.

A portion of Holmes Avenue will be swung south of its present location so it will run into Bradford Drive which runs westward into the Research Park from Sparkman Drive. The relocated road will pass over the new road between Morton Hall and the Research Institute to provide unhindered access between the ends of the campus.

Some very important questions about future development still remain unanswered Mr. Reeves says. One is the matter of what to do where the mall crosses Holmes Avenue. Hopefully, he noted, a portion of the street can be put under the mall so pedestrians will not be interrupted by heavy traffic.

All the details of such an arrangement will need to be worked out within the next five to six months, Reeves added.

Another ticklish problem is where to locate the Student Union building. The ideal location in the long run, according to Mr. Reeves, would be on Holmes Avenue. This building, however, is planned to come next after the library and a new science-engineering building. Since it is expected to be completed in about three years, a location on Holmes Avenue would probably be inconvenient to most students for several years before proving its true value.

Nor has any decision been reached on just what activities should be housed in a union building. The question of whether fraternities and sororities should have separate houses or individual rooms in the

Presents The

# 1966 INAUGURAL BALL

in the  
Sheraton Inn Ballroom  
on

SATURDAY, NOVEMBER 26, 1966

From 9:00 PM until 1:00 AM

Admission will be FREE with U.A.H.  
FULL-TIME Student Identification  
Cards, or \$1.00 for out-of-school  
Guests.

MUSICIANS:

"The TOP HATS of Dixie"

SEMI-FORMAL

## SGA INAUGURAL BALL

The first official public inauguration of SGA officers and representatives will be held at the Sheraton Motor Inn this Saturday night.

In addition to the brief ceremony, the inaugural festivities will include a banquet for the officers and representatives and selected guests and a public inaugural ball.

The banquet will be held in the Alabama room of the Sheraton beginning at 7:30 p.m. The guests will include vice-president H. Clyde Reeves, heads of the divisions of UAH, and full-time, undergraduate faculty.

Mr. Reeves will be chief speaker at the dinner. Other speakers will be SGA President Ron Sanders, who will introduce the officers and representatives, and Rep. Jim Kimbrough, who will act as master of ceremonies.

Rep. Kimbrough headed the committee that drew up the program for the festivities. The other members of the committee are Gina Yates, Al Gray, and Mike Vaughn.

After the dinner, the hall will be cleared of tables and enlarged for the inaugural

### Dr. Baker Discusses Co-operation Between Schools and Industry

Closer co-operation between educational institutions and industries for better engineering education was discussed by Dr. David F. Baker of Ohio State University in a lecture November 15, at the Research Institute.

Dr. Baker's talk centered around the growing interest among industrialists in the process of training new engineers. He illustrated his position that co-operation between schools and industry would benefit both by describing a joint program under his own Department of Industrial Engineering at Ohio State.

Now chairman of the Department of Industrial Engineering, Dr. Baker has been a member of the Ohio State faculty since 1953. Prior to then he worked for private industry. He has received three degrees from Ohio State: the Bachelor of Industrial Engineering and the Master of Science degrees in 1952 and the Ph. D. in 1957.

In addition to his degrees Dr. Baker holds such honors as authorship of numerous technical articles and presidency of Alpha Pi Mu, national industrial engineering honorary.

ball, scheduled to start at 9 p.m. Music will be provided by the Top Hats of Dixie, a 14 piece stage orchestra, composed of students from Florence State College.

Admission will be free on identification card to UAH students who have paid the activity fee for this quarter. Others will be admitted for \$1. Students enrolled at Tuscaloosa who are home for the weekend are invited to attend without charge.

The official ceremony investing the new officers and representatives will consist of the passing of a gavel to the president. This will be done at the beginning of the ball.

Suits for the boys and cocktail dresses for the girls has been suggested by the planning committee as appropriate attire for the dance. The banquet will be more formal.

This is the first time such an appointment has been made during a regular school term.

"My interest in applying for the internship program," he explained, "was aroused by the unique fact of being able to give principal application to instruction in the class room."

Beck, a high school dropout himself, is highly aware of the necessity of trying to ele-

## BUILDING PLANS -

(Continued from Page 3)

union is still unanswered, he added.

Yet, the vice-president is confident about the future of the building program at UAH. When asked how long he thought it would take to reach

the projected 12,000 enrollment, he commented, "It would be my guess that about 20 years from now we will see a development similar to the one shown in this model."

### MALE STUDENTS: Beware the Conscription!

Male students attending UAH on a full-time basis for only three terms per year may lose their student deferments according to the Office of Student Records.

The Alabama State Office of the Selective Service requires that a deferred student earn a minimum of 30 semester hours or 45 quarter hours to maintain normal progress toward a degree.

The Records Office points out that the minimum full-time load of nine semester hours, per term at UAH will add up to only 27 hours at the end of the three terms making up the normal, nine month academic year. Thus a male student should anticipate taking more than the minimum number of courses in order to retain his exemption.

### Dr. John Kramer of UAH Attends Philosophy Meeting

Dr. John Kramer, part-time faculty member at UAH, attended the Fourth Plenary Meeting of the Alabama Philosophical Society at Birmingham-Southern College on Saturday, October 29, 1966.

At this meeting Dr. Kenneth W. Waters, Auburn, presented his paper "Karl Jaspers on the Cipher"; Dr. Max Hocutt, University of Alabama, read

his work on perception; and Dr. Robert V. Andelson, Auburn, presented "Rousseau and the Rights of Man."

Other papers presented included "Violence and Legality in Civil Disobedience" by Dr. Thomas W. Schmidt, Tuskegee Institute, and "Two Utopians and Two Aspects of Culture" by Dr. Anatol von Spakovsky, Athens College.

## Woody Beck Gets Second Oak Ridge Appointment

Elwood M. (Woody) Beck, Jr., a 21 year old junior, has received his second appointment as a student intern in area development conducted by Oak Ridge Associated Universities.

Announcement was made this week by A. W. Holden, chairman of the intern committee for the Elk River Development Association. The program is sponsored by the Tennessee Valley Authority.

Beck, a major in history, will work closely with local area development personnel in conducting a study of school dropouts in Grundy County, Tenn. Dr. Orba F. Traylor, professor of economics at UAH, will serve as his university counselor.

This is the first time such an appointment has been made during a regular school term.

"My interest in applying for the internship program," he explained, "was aroused by the unique fact of being able to give principal application to instruction in the class room."

Beck, a high school dropout himself, is highly aware of the necessity of trying to ele-

viate or at least cut down the ratio of high school dropouts. After a stint in the Navy, he resumed his studies and is now a full-time student at UAH.

The student internship program has been developed to place college juniors, seniors and graduate students in selected areas for 12 weeks where they will work with local development organizations in various fields.

The program is designed to aid local development organizations by providing additional information on the resources in the areas studied, and by developing and testing methods for utilizing these resources more effectively.

Last summer Beck was appointed on a full-time basis to conduct a similar survey.

He has compiled his findings and recommendations into a paper titled, "Report on School Dropouts in Lincoln County, Tenn." The report is now being printed and copies may be obtained by writing Oak Ridge Associated Universities, Inc., Oak Ridge, Tenn.

Beck is a member of the Student Legislature, historian and member of the Program Committee for the UAH History Club, and a reporter for the Univala.

After receiving his B.A. degree, he plans to work toward a masters degree, probably in philosophy. He has made application to attend the University of Edinburgh in Scotland.

He is the son of Mr. and Mrs. E. M. Beck, Sr., 2201 Phillips Rd.

## Team 3 Remains Undefeated

An unbeaten team 3 rolled up their fifth straight win with a 48-0 victory over last place team 4 at Randolph School Field, November 13.

Tommy Glynn, Beau Loftin, and Larry Stanley each contributed two touchdowns to their team's victory. Patterson carried the ball into the endzone once.

Team 3 piled up an impressive lead in yardage both rushing (128 to -8) and passing (241 to 74). They received six penalties to team 4's one, however.

First to have control of the ball, team 3 was not able to move the ball past their own 39 yard line in spite of gaining a first down on the second play after the kickoff.

Forced to give up control of the ball on downs, they then held team 4 to a two yard gain by skillful pass defense and forced them to punt.

Once more in possession of the ball, team 3 mounted their first scoring drive by grinding out two first downs. The first came on a keeper play run by quarterback Tommy Glynn and the second on an 18 yard pass received by Larry Stanley that put team 3 on team 4's 18 yard line.

Beau Loftin took the ball into the endzone two plays later on a pass from Glynn.

Larry Stanley took another of Glynn's passes to ring up two more points on the conversion.

Team 4 penetrated to the 31 yard line of team 3 on a 36 yard runback by Steve Northway on the kickoff. Two incomplete passes and a loose ball downed behind the line of scrimmage cancelled any hope for a successful drive. The punt went into the line by mistake giving team 3 possession on about their own 40 yard line.

In the ensuing series of downs a 60 yard touchdown pass from Glynn to Stanley was called back because the quarterback was over the line of scrimmage when he threw the ball. Twice the ball hit the ground on the snap and was downed behind the line.

Jim Rhodes put team 3 back on the road to the goal line by intercepting a pass on the first play after the ball went over on downs. Two plays later Tommy Glynn ran 58 yards to the endzone to put his team ahead 14-0.

Team 4 was unable to move the ball after running the kickoff back to their own 36 yard line. Two running losses and an incomplete pass forced them into a punt that was blocked by Team 3's Dwight Tuck. An offside penalty against team 3 gave them another chance,

but it too failed when the ball hit the ground on the snap.

Taking immediate advantage of the ball's nearness to the goal line, Glynn passed to Patterson who made the final 24 yards to leave the score at 20-0.

Plagued by incomplete passes, team 4 was again forced to give up the ball on downs deep in their own territory. Two plays later Glynn passed to Stanley for a touchdown and then ran the conversion himself to place the score at 28-0 as the half ended.

A hopeless team 4 was overpowered by the team 3 defense as they attempted to move the ball out of their own territory after receiving the second half kickoff. The punt went only to their 42 yardline.

Beau Loftin, who has swapped positions with Tommy Glynn for the second half, threw an 11 yard pass to Patterson. Two plays later he ran the ball himself for a 23 yard gain. After a short, three yard pass to Patterson, Loftin

connected with Stanley who carried the ball the remaining four yards for a touchdown.

Again unable to move the ball against team 3's defense, team 4 had to give up the ball on their own 47 yard line. Two first downs - both on

passes from Loftin to Stanley put team 3 six yards from the endzone. Two plays later Loftin took another of Glynn's passes across the goal line. The same play netted the two-point conversion to make the score 42-0.

A pass to Stanley on the next play was good for 30 yards putting team 3 just ten yards from their final score. After failing twice to link up with Stanley, Loftin ran the ball in jumping over defender Larry Vann into the endzone to make the score 48-0.

Finally, in the last of the fourth quarter, team 4 started what looked like a possible touchdown drive. Larry Vann passed for two first downs - one carried by Skippie Adamson and the other by John Napolitano. An eight yard pass to Bob Stores brought them to team 3's 15 yard line.

On the very next play, however, Larry Stanley intercepted a pass intended for Stores with only seconds left in the game.

Statistics for the game were:

	Team 3	Team 4
1st Downs	7	2
Yds passing	241	74
Yds rushing	128	-8
passes	32-17-1	29-9-4
penalties	6-30	1-5
score	48	0

## UAH Flag Football

### Team Standings

Team records for the UAH intramural football league as of press time last week were as follows:

	W	L	T
Team 1	4	1	0
Team 2	2	3	0
Team 3	5	0	0
Team 4	0	5	0
Team 5	1	3	0

The tabulation does not include the results of games played Sunday, November 20.

## Team Gets House

Two weeks ago the UAH Rowing Team moved into its new boathouse on the banks of the Tennessee River. The new boathouse is located about 100 yards upstream from the state boat dock, in front of the launching slip. This location enables the crew to get the shells launched quicker and easier.

The boathouse, built by

Carl Culver Hause, is a 66-foot long aluminum structure capable of housing up to six shells. Funds for the construction were appropriated by Madison County under the sponsorship of Commissioner James Record.

When asked what he thought of the new boathouse Coach McHugh replied, "We're very happy that we have our own boathouse."

## Team 5 Forfeits, Wins

Team 5, though officially the losers in the second game November 6, came back to beat their opponents, team 2, 26-12.

The game was officially

counted a forfeit when team five was unable to field the minimum of seven players. Additional players were recruited from the spectators so that the game could be played although unofficially.

Among those who played for team 5 were Tommy Glynn of team 3 and Jay Mullins of team 1 who had just moments before finished playing.

The opening kickoff by team 5 was carried out of bounds on team 2's 38. The ball went over to team 5, as team 2 succeeded in moving the ball only five yards in four tries.

Team 5 immediately lost five yards for taking too much time in the huddle but connected on two passes for the first touchdown.

Team 2 then eked out the initial first down of the game in spite of two delay-of-game penalties and an eight yard setback by moving the ball 48 yards on a running play.

Two plays later, team 5 intercepted a pass only to have team 2 pull the same trick on second down.

They were unable to move the ball in three pass attempts after coming agonizingly close to a first down with a 14 yard run on their first play with the ball.

Taking the ball over on downs did team 5 no good. After a 16 yard running loss, two five yard penalties, and an incomplete pass, they kicked out to their own 35 yardline. There, Frank Doolittle caught the ball and ran it into the endzone to tie the score at 6-6.

On the first play after the kickoff, team 2 intercepted a pass and then chalked up 38 (Continued on Page 7)

## TEAM 3 -

(Continued from Page 6)

yards on a pass of their own. Time ran out in the half, however, after only one more play - an incomplete pass.

Team 5 ran the second half kickoff back to their own 40. Two plays later, Tommy Glynn put them in scoring position by carrying a pass for a 40 yard gain. This scoring drive was abruptly halted when team 2's Frank Doolittle intercepted a pass on his own 10 yardline.

Team 2 then ground out the game's longest series of ground-gaining plays by making two first downs. The first came on a 24 yard pass from Doolittle to Hayes. Two plays later the team completed a 36 yard pass play. After that, though, the drive bogged down and after a 5 yard penalty, a loss of six, and two incomplete passes, the ball went over on downs.

Team 5 had made only two plays when team 2's Henry Hall intercepted a pass on the 33. He then ran it in to put his team ahead 12-6.

A holding penalty against team 2 on the kickoff and an impressive runback by team 5 put the ball just over the 50 yardline in the former's territory. From there team 5 completed three passes in succession to tie the score at 12-12. The conversion attempt failed.

Receiving the kickoff on their own 10, team 2 failed to move the ball past the 20 and kicked on fourth down. It went only as far as their 41 and on the next play, team 5 gained five yards as they went off-sides.

The remaining 36 yards were gained on a pass two plays later. Jay Mullins then made the only conversion of the game by running the ball into the endzone when he found his receivers covered.

Team 2's hopes to stage a late rally were crushed when, after an encouraging 25 yard runback on the kickoff by Doolittle, two passes went incomplete and third was intercepted by Glover on team 5's 26 yardline.

A 21 yard run by Mullins and a three yard pass brought team 5 to the mid-field marker. Then Brewer made a dazzling touchdown play, receiving a pass and carrying it the full 50 yards to the endzone as time ran out in the game.

The game ended on a surprising though futile play by team 2's Stanley Schmitt. Intercepting the conversion pass on his own one yardline he ran it all the way back for a touchdown. The officials refused to count it, however, because of the rule against running back a conversion attempt.

Statistics for the game were:

Team 2	Team 5
1st downs	4
Yds passing	121
Yds rushing	44
Passes	25-9-2
Penalties	5-35
Score	12

## Team #1 Falls to

## Mighty Team # 3

Undefeated team 3 spoiled an understrengthed teams 1's perfect record in a 42-18 walk-away November 6. Both teams had 3-0 records going into the games.

As one spectacular long-distance play followed another, team 3 pulled out well in front of team 1 in both yards passing (274 to 170) and yards running (71 to 21). Team 1, though, worked out five first downs to team 3's mere two.

The first score came midway through the first quarter as team 3, deep in their own territory, attempted to punt. The ball went wild when snapped and was downed on the two yard line before quarterback Tommy Glynn could gain control of it. Larry Hayes carried the ball across the goal line on the next play to put team 1 ahead 6-0.

After the kickoff, first team 3 and then team 1 tried and failed to make a first down. On the first play after the ball went back to team 3 on downs, however, Larry Stanley received a pass from Tommy Glynn and carried it into the endzone for a spectacular 47 yard touchdown play.

A short pass to Beau Leftin put team 3 ahead 8-6 at the end of the quarter.

Team 1 regained the lead briefly after Gary Desart ran the kickoff back 73 yards to team 3's nine yardline. Larry Hayes gained the remaining distance on a pass from quarterback Lemar Frith. Again the conversion attempt failed.

Beau Leftin ran the kickoff back for team 3 to his own 40 yardline. The remaining 60 yards fell before Tommy Glynn on the next play as the scrambling quarterback ran the ball down the sideline into the endzone to put his team back into the lead 14-12.

Frith's passing gave team 1 a rare first down on the first down on the first play after the kickoff. Three incomplete passes and one mere three yard completion crushed the teams of a sustained drive.

Team 3 then started its own touchdown drive. The first play netted the team ten yards on a double lateral from Glynn to Patterson back to Glynn. Two plays later, quarterback Glynn scampered for eight yards and a first down. Then a pass play to David Craddock gained 54 yards for another touchdown. Glynn's pass to Leftin was good for 2 points to put team 3 ahead 22-12.

Incomplete passes again failed team 1's attempt to stage a comeback and they had to give up the ball on their own 40 yardline. After one unsuccessful attempt Glynn connected with Stanley for the touchdown play boosting the score to 28-12.

Once more in possession of the ball, a determined team 1 narrowed the scoring gap by grinding out the longest sustained touchdown drive in the game. In a march that began on his own 29 yardline,

## Mighty Team # 3

quarterback Lemar Frith completed six passes out of seven attempts for two first downs.

Though threatened by an incomplete pass and a penalty for delaying the game, Frith connected with Jay Mullins for the remaining 25 yards and a touchdown to make the score 28-18 at the end of the quarter.

Team 3 brought the kickoff back to the midfield line - well within the range of some of their earlier scores. However, an eleven yard loss on the fourth down play halted their progress.

Nor was team 1 able to move the ball against team 3's defense. Two incomplete passes and a six yard running loss forced them to punt on fourth down.

The kick was run back to team 3's 40 yardline by Tommy Glynn. Another of Glynn's surprisingly long pass plays, this time to Larry Stanley, chalked up another six points. The conversion attempt failed and the score stood at 34-18.

Team 1's Desart received the kick and ran it back nearly to the midfield line. That team's hopes of a comeback were dashed, however, when linesman Dwight Tuck intercepted a pass that Frith had intended for Hayes. Two plays later Glynn teamed up with Leftin for a 46 yard touchdown pass play. After the successful conversion attempt the score was at 42-18 where it remained.

Team 1 had possession of the ball twice again before the end of the game. The first time they were thwarted by incomplete passes and a stubborn team 3 defense that threw them for a 13 yard loss on the fourth down play.

In the last moments of the game Frith connected with Mullins for a first down. That success was in vain; however, as time ran out during the second down play.

Statistics for the game were:

	Team 1	Team 3
1st downs	5	2
Yds passing	170	274
Yds rushing	-21	71
Passes	36-16-1	20-9-0
Penalties	4-17	2-10
Score	18	42

## Sweating Team # 1

## Slips past Team # 5

Team 1 added another ribbon to its cap with a 44-8 win over team 2 in the second game November 13.

Star pass receiver Larry Hayes carried the ball into the endzone four times in the game. Dennis Chandler and Ed Satterfield made the other two touchdowns. All six scores were made on pass plays by quarterback Lemar Frith.

The first scoring drive began midway through the first quarter when Chandler intercepted a pass by Shirey. After a 33 yard run by Frith, Hayes took a 20 yard pass into the endzone. Frith then ran the conversion to make the score 8-0.

Team 2's next attempt to get the ball moving sputtered when three passes were thrown incomplete. Then as Frank Doolittle went back to kick on fourth down, the ball hit the ground on the snap and was downed behind the line of scrimmage.

Two plays later Frith connected with Hayes for the 28 yards necessary for the second touchdown. A pass to Mullins made the score 16-0.

The two teams swapped the ball twice after the kickoff with a pair of interceptions that left team 2 in possession. Control of the ball did them little good, however, as Gary Desart plunged in twice to throw the ball carrier for a loss.

Jay Mullins received the punt on the 31 yard line and was immediately assessed a five yard penalty for running after signaling a "fair catch".

On the next play Chandler covered the 36 yards to the goal line after receiving a pass from Frith. Taking the ball near one sideline, he cut across the field behind a screen of blockers and ran down the other sideline for the score. Hayes made the conversion putting the score at 24-0.

Still unable to move the ball against team 1's defense, team 2 made a goal line stand to freeze the score as time ran out in the first half. After seeing team 1 penetrate to the three yard line with three plays left, team 2 threw them for two successive seven yard losses and broke up a pass on the fourth down play.

Team 1	Team 2
1st downs	7
Yds passing	305
Yds rushing	24
Passes	27-15-3
Penalties	7-65
Score	44

Team 2's Shirey intercepted the pass on the conversion attempt and ran it back out of the endzone to the four yard line.

He and his team mates then started a drive that carried them 50 yards before the team 1 defense stiffened.

Unable to go any farther, they were thrown for two running losses and made two incomplete pass attempts as time ran out in the game.

Statistics for the game were:

## Fraternity to Hold Dance November 25

Delta Beta Sigma, an unaffiliated social fraternity recently organized by UAH students, will hold its first dance this Friday night according to Mike Gray, its president.

The dance, open only to those invited will be held at the Westbury Recreation Center in Westbury Apartments off South Memorial Parkway.

In explaining the present status of DBS Gray stated that the fraternity is an independent organization that is not affiliated with the University or any other fraternity. Instead, it was organized this past

September by a small group of UAH students who felt the need for such an organization, he says. As such, all business meetings and social activities are held away from campus. It is, however, intended for male students at UAH.

According to Gray, the charter members are himself; Craig Garrison, vice-president; Robert Hawkins, secretary; Bob Stiles, treasurer; and Jay Mullins, membership chairman. Five additional students are now in various stages of pledging and about ten more are expected this quarter.

Male students who are interested in becoming members of DBS should contact Jay Mullins, 534-3365.

# UAH Choir Presents First Public Performance

The new UAH choir made its public debut November 17 at a luncheon for the University Women's Club at the Sheraton Motor Inn.

Featured on the program were "Here's Love", "Camelot", "Koom Bah Yah", and "Wondrous Cool."

The University Women's Club is an organization for

members and wives of members of the UAH faculty and staff.

The choir's next appearance will be before the Metropolitan Kiwanis Club at the Russel Erskine Hotel on Monday, November 28.

On December 4 the choir will appear in a special Christmas program on the

steps of Morton Hall. The program, scheduled to begin at 4:30 p.m., will also feature readings by H. Clyde Reeves, vice-president for Huntsville affairs, and the lighting of a special Christmas wreath.

The wreath lighting is reputedly intended to be the start of a yearly tradition at UAH.

## Faculty Plans Rules

UAH's faculty is formulating plans for a permanent Faculty Constitution. For the past year the faculty has been working under a temporary constitution.

The purpose of this constitution is to co-ordinate faculty efforts toward the creation of a higher quality university. It is hoped that clearer ideas of the essential nature and future goals of UAH will emerge from the present talks.

# Dr. Welker Attends Language Meeting

Dr. Robert L. Welker, associate professor of English and chairman of the English department at UAH, attended the thirty-sixth annual meeting of the South Atlantic Modern Language Association in Charlotte, North Carolina, November 10-12.

In addition to the association's business sessions and annual luncheon, the meeting included seminars on various aspects of modern languages.

Meetings and sessions were held in the Queen Charlotte Hotel in Charlotte.

## Creative Writing Will Be Offered

Dr. Robert L. Welker, Head of the English department, announces a course in Creative Fiction Writing will be offered next quarter. This course will be designated as English 51.

Herbert Francis will teach this course during the day for

## Annual Debating Clinic Held in New Building

The annual fall clinic for debating teams from several North Alabama counties was held in the new Graduate Studies Building, November 3.

Dr. Hugh L. Taylor, director of counseling and advisory services, and Dr. John H. Sloan, associate professor of speech, both from the Tuscaloosa campus, conducted the program.

The purpose of the clinic was to prepare the students for state-wide debating tournament to be held April 6-8 at Tuscaloosa. The top five debaters will each be given a one year free tuition to the University of Alabama, sponsor

the benefit of full-time students. Admission to the class is limited to fifteen students. The permission of the instructor is required to enter the class.

For further information contact Mr. Francis, room 115, in Morton Hall before registration.

of the Alabama High School Forensic League which conducts the contest.

The program of the clinic included an explanation of the fundamentals of debate and a discussion period. The final event was a demonstration debate by students from Coffee High School with a critique by Dr. Sloan.

Among those participating in the clinic were a group from Lee High School: Charlise Gammon, Tim Raineo, Ann Hendley, Carol Crockett, Candy Dwyer, Norma Hill, Vicki Goldsmith, Lynn Hanson, Wade Hinkie, and R. J. Leo, debate coach.

## LOCAL ENTERTAINMENT

By Dru Moody

There will be excellent entertainment during the next two weeks for Huntsville's movie-goers.

Currently at the Alabama is "Dr. Zhivago", which will be showing until December 14. The Alabama, incidentally, has booked three more of the most demanded pictures. Scheduled for presentation in the next few months are "The Sound of Music," "Alfie", and "Is Paris Burning?"

Probably no motion picture star in recent years has won such accolades as have been accorded to Omar Sharif who achieved a personal triumph in the title role of "Dr. Zhivago". Before that, he became an international favorite for his work in such other successes as "Lawrence of Arabia", for which he won an Academy Award nomination, "The Yellow Rolls Royce," and "The Fall of the Roman Empire."

Shariff now stars in the spectacular adventure-drama, "Marco the Magnificent", starting the 30th at the Lyric. Seldom has a motion picture piled up as many breathtaking thrill sequences as are offered in this epic-scaled picture, which was filmed with a cast of thousands on far-flung locations in Egypt, Yugoslavia, Afghanistan, and the Orient.

Relating the story of the perilous journey made by the young Venetian, Marco Polo, to the Emperor of China in the 13th century, the picture boasts a magnificent cast. Shariff, who enacts a dashing desert shiek, is co-starred with equally acclaimed, two-time Academy Award winner Anthony Quinn as the Chinese emperor Kublai Khan. Elsa Martinelli is seen as the fiery "Girl with the Whip", and Horst Buchholz plays Marco Polo. "Marco the Magnificent" is definitely one of the best on the bill.

At the Martin is a movie that is as hilarious as its title -

"Not with My Wife, You Don't". The story begins moving when Colonel Tom Ferris (Tony Curtis) and his beautiful Italian wife (Verna Lisi) go on a peacable mission to London, where they encounter an old acquaintance from twelve years back, Colonel "Tank" Martin (George C. Scott).

It seems that the two colonels have a long record of stealing girls from one another. In fact, Colonel Ferris won his bride after deceiving her into thinking Colonel Martin, her other suitor, died on a mission.

There can be nothing but laughter, as the plot combines a jealous husband, vengeful lover, and puzzled wife. The height of the comedy comes when Ferris is ordered to go on a mission to Copenhagen and must leave his wife in her old flame's custody - which includes a trip to Rome.

"Not With My Wife, You Don't", is a zany, fast-moving picture that is sure to hold appeal for its audience.

Take a break after studying one night this week and squeeze a show into your schedule. No matter which of the three movies you choose, you can be sure you won't lose.
